Vitamin prescriptions are an essential part of your health program. An approximate initial cost is \$ 400.00 - \$ 500.00 dependent on the particular prescription for each patient.

Once appointments have been confirmed, our clinic will dispatch to all patients a portfolio full of essential information. In the portfolio there are questionnaires that must be completed and returned to the clinic at least 48 hours prior to your initial visit to allow the physician time to review your health history and specific health concerns in greater detail. This allows more time for creating a thorough treatment program for you rather than case history taking on your actual visit days.

Your portfolio will also include all of your fasting instructions for your laboratory visits as well as the instructions to be strictly followed regarding your BEST program.

Lunches are available at the Maas Café at Henley House 6 days a week and are freshly prepared daily by our in-house gourmet chef specializing in gluten-free cooking. The Maas Cafe caters to all of our clients following The 5 Laws Diet Program or those that simply desire delicious, healthy food. Advance orders can also be made for specialty cassava breads, sin-free desserts and catered events.

All of our prices have been quoted in US Dollars for your convenience. Barbados is currently tied to the US Dollar at \$1.98 BDS to \$1.00 USD.
